

# End of Cycle 2017 Data Resources

## DR4\_013\_03 Applications by provider and A level

UCAS

**Statistic:** Number of Applications

**Variables:** Provider Name, Holds A level Qualification, Cycle Year

**Coverage:** Applications through the main scheme and UK domiciled

### Definitions

#### Holds A level Qualification

Indicates if an applicant has achieved an A level or A level Double Award qualification (at least one) as identified either on application or through awarding body linkage process. Please note: This flag is not updated beyond the end of the application cycle for each applicant. (I.e. if an applicant applied in the 2008 cycle without achieving an A level, but went on to obtain this qualification in 2009, the value for the applicant applying in 2008 would remain 'A level qualification not identified'.)

#### Provider Name

The Higher Education Provider (HEP) at the time of the application. This does not take into account any mergers or rebrands, for example if HEP A and HEP B merged to become HEP A in 2012, all applications and acceptances will be reported as HEP A from 2012 onwards. Prior to 2012 all applications and acceptances will be reported as HEP A or HEP B as appropriate.

#### Context notes:

University of East London (E28): In the 2017 cycle a large number of RPAs were not recorded for the University of East London (E28). The actual values for the total number of placed applicants and the number admitted through RPA for this provider will be 862 higher than those reported.

**\*Further context notes provided by individual providers marked with an asterisk are available to view on [www.ucas.com](http://www.ucas.com).**

#### Cycle Year

The cycle in which the application was processed.

#### Number of Applications

Application is defined as a choice to a course in higher education through the UCAS main scheme. Each applicant can make up to five choices, which was reduced from six in 2008. The number of applications does not include choices made through the following acceptance routes: Clearing, Extra, Adjustment and RPAs.
