C.5 Technical notes and definitions

Applicants have been able to submit applications for all 2016 courses since early September.

This statistical release covers all Main Scheme applicants, including those who have applied for courses with a 15 October deadline. Counts of RPAs (records of prior acceptance) are not included.

Applicant totals are those at the first Monday in January for each cycle (the 'interim comparison point').

The date of the interim comparison point varies from cycle to cycle. For the December interim comparison point the dates for the 2012 to 2016 cycles are 02/01/2012, 07/01/2013, 06/01/2014, 05/01/2015 and 04/01/2016 respectively.

Cycle to cycle proportional changes at the interim comparison points before the January deadline are often different (in both size and direction) from the proportional changes at the January deadline.

Counts of the number of applicants reported have been rounded to the nearest 10, this may result in instances where totals do not equal the sum of the components. Proportional changes are calculated from unrounded data and are presented rounded (to nearest 1 per cent).

Applicant

A person who has made an application in the UCAS system during the cycle reported (including applications for deferred entry). Records of prior acceptance (RPAs) are excluded.

Domicile

Reported from the declared area of permanent residence. The Channel Islands and the Isle of Man are reported under 'Not EU'.

Main Scheme

The main UCAS Undergraduate application scheme, through which up to five providers/courses can be applied to. Opens in September and closes to new applications on 30 June.
